## **Accelovance Recognized as a Fastest Growing Company by Washington Business Journal**

Rockville, MD – October 7, 2011 – The Washington Business Journal named Accelovance to its list of the 50 Fastest Growing Companies in the mid-Atlantic region for the second year in a row. Ranked 32 in 2010, over the past 12 months Accelovance posted continued revenue growth and staff expansion. At the awards reception held at the Tyson's Corner Ritz Carlton on October 6<sup>th</sup>, it was announced that Accelovance ranked 24<sup>th</sup> with 49% growth.

Steve Trevisan, President and CEO of Accelovance, accepted the award last night on behalf of the company and later commented, "We are pleased to be among some of the most dynamic companies in the region despite very challenging market and economic conditions. The core of our business rests upon innovation, quality work and strong relationships; our clients and their success are what define us. Looking forward, we intend to maintain this growth."

This award follows other acknowledgement for the privately held clinical research organization who earlier this year reported six consecutive years of revenue growth after closing out a successful 2010. Accelovance received recognition from industry colleagues with the "Best CRO" ViE Award in 2009, 2010 and again in 2011 for best-in-class services and corporate commitment to supporting the business needs of its clients.

Headquartered in Rockville, Maryland, Accelovance is a privately held company that has developed a unique operational approach for delivering quality, on time, and cost effective clinical studies. The Company tailors its offering of full CRO, Clinical Sites, Patient Recruitment, and Call Center to present a clinical solution that meets a Sponsor's needs. Accelovance's ownership and operation of six (6) research-dedicated clinical sites provides operational insight to study conduct and patient recruitment that other CROs never acquire. Additionally, Accelovance has a wholly owned subsidiary providing regulatory consulting and CRO services in China. These capabilities can assist clients with global development programs or product registration in China, the fastest growing pharmaceutical market in the world.
